

Training Academy

Upskill your employees and increase your team's effectiveness

AGRAMKOW

Empower your employees

Your personnel are your biggest source of strength. The AGRAMKOW's Training Academy offers a variety of training programs that cover all the challenges you might face and to ensure that your teams are empowered with the knowledge they need to achieve and deliver the best possible results.

Our training programs can be tailored to your specific needs and cover areas such as process, product quality, equipment, and digital solutions. We can create interactive scenarios that gives your personnel the chance to carry out regular operational activities, identify issues and resolve problems, in a safe, realistic way.

The training program can be conducted onsite at your own premises, online, so your team can attend from anywhere in the world or a standard training can be organized at AGRAMKOW's location.

Do not compromise on safety or efficiency, nurture your employee's productivity, and help them grow and adapt to changing situations by investing in employee development.

Equipment and software trainings

We offer training on the whole range of equipment and digital solutions:

- Refrigerant charging stations
- Refrigerant supply systems
- Leak detection systems
